

§ 1435.313 Permanent transfer of acreage base histories under proportionate shares.

(a) A sugarcane producer on a farm may transfer all or a portion of the producer's acreage base history of land owned, operated, or controlled to any other farm in the State that the producer owns, operates, or controls under the Deputy Administrator-issued instructions. The transfer will reduce permanently the transferring farm's sugarcane acreage base history and increase the receiving farm's crop acreage base.

(1) All farm owners must agree in writing to the transfer.

(2) Producers may transfer sugarcane acreage base histories under this section by the date the State FSA committee establishes annually.

(b) Sugarcane acreage base that has been converted to nonagricultural use on or before May 13, 2002, may be transferred to other land suitable for the production of sugarcane under the following terms:

(1) CCC must notify 1 or more affected landowners within 90 days of becoming aware of the conversion, of their rights to transfer the base to 1 or more farms owned by the landowner;

(2) The landowner has 90 days from the date the landowner was notified to transfer the base;

(3) If the landowner does not exercise this transfer right, the grower of record will have 90 days after being notified by CCC to transfer the base to 1 or more farms owned by the grower;

(4) If the transfers as specified under paragraphs (b)(2) or (3) of this section are not accomplished during the specified periods, FSA county committee will place the base into a pool for possible reassignment to other farms;

(5) After providing notice to farm owners, operators and growers of record in the county, the committee will accept requests from farm owners, operators, and growers in the county;

(6) The county committee will assign the base to other sugarcane farms in the county that are eligible and capable of accepting the acreage base, based on a random drawing among requests received under paragraph (b)(5) of this section;

(7) Any unassigned base will be made available to the State FSA committee and be allocated to remaining FSA county committees in the State representing counties with farms eligible for assignment of the base, based on a random drawing; and

(8) After the acreage base has been reassigned, the acreage base will remain on the farm and subject to the transfer provisions of paragraph (a) of this section.

§ 1435.314 Temporary transfer of proportionate share due to disasters.

(a) If, for reasons beyond the control of a producer on a farm, such producer is unable to harvest sugarcane acreage relative to all or a portion of the proportionate share established for the farm, the Secretary may preserve, on producer application and written consent of all owners of the farm, for a period of not more than 5 consecutive years, the acreage base history of the farm to the extent of the proportionate share involved.

(b) Such proportionate share may be transferred, with the written consent of all owners of the farm, for 1 crop year to other farm owners or operators subject to the following conditions:

(1) The acreage base history of the transferring farm will be preserved for a period from 1 to 5 years; and

(2) Acreage base history will not be increased on the receiving farm.

(c) Producers who transfer a proportionate share under this section will be required to:

(1) Initiate the transfer in the county FSA office where the proportionate shares are established; and

(2) Obtain approval from the transferring county FSA committee.

(d) All transfers made under this section must be completed by the date the State FSA committee establishes.

§ 1435.315 Adjustments to proportionate shares.

Whenever CCC determines that, because of a natural disaster or other condition beyond the control of producers adversely affecting a sugarcane

crop, the amount of sugarcane produced by producers subject to proportionate shares will not be sufficient to enable state processors to produce sufficient sugar to meet the State's cane sugar allotment and provide a normal carryover of sugar, CCC may uniformly allow producers to harvest sugarcane in excess of their proportionate shares, or suspend proportionate shares entirely.

§ 1435.316 Acreage reports for purposes of proportionate shares.

(a) A report of planted and failed acreage shall be required on farms that produce sugarcane for sugar or seed. Such report shall also specify the total acreage intended for harvest for sugar and seed.

(b) The reports required under paragraph (a) of this section shall be on forms prescribed by CCC and shall be filed annually with the county FSA committee by the applicable final reporting date CCC establishes. The farm operator or farm owner shall file such reports.

(c) Acreage reports will be used to determine compliance with proportionate shares and acreage bases for future proportionate shares.

(d) An acreage report may be accepted after the established date for reporting if physical evidence is still available for inspection that may be used to make a determination relative to:

- (1) Existence of the crop;
- (2) Use made of the crop;
- (3) Lack of crop; or
- (4) Disaster condition affecting the crop.

(e) The farm operator shall pay the cost of a farm visit by an authorized FSA employee unless the county FSA committee has determined that failure to report in a timely manner was beyond the producer's control.

(f) The farm operator may revise an acreage report. Revised reports shall be filed in accordance with CCC instructions and shall be accepted at any time if:

- (1) Evidence exists for inspection and determination of:
 - (i) Existence of the crop;
 - (ii) Use made of the crop;
 - (iii) Lack of crop; or

7 CFR Ch. XIV (1-1-12 Edition)

(iv) Disaster condition affecting the crops.

(2) The farm has not already been inspected and the acreage already determined or harvesting of sugarcane already begun.

(g) Provisions of part 718 of this chapter will apply for field inspections, tolerance, and variance. Assessments for false acreage reporting will be applied under § 1435.318.

§ 1435.317 Revisions of allocations and proportionate shares.

The Executive Vice President, CCC, may modify any processor's allocation or any producer's proportionate share on the same basis as the initial allocation or proportionate share was required to be established.

§ 1435.318 Penalties and assessments.

(a) Any sugar beet or sugarcane processor who knowingly markets sugar or sugar products in excess of the processor's allocation will be liable to CCC for a civil penalty in an amount equal to 3 times the U.S. market value, at the time the violation was committed, of that quantity of sugar involved in the violation.

(b) CCC may assess liquidated damages, as specified in a surplus allocation survey and agreement, with respect to a surplus allocation still existing after the end of a crop year if the processor had a surplus allocation because the processor provided incomplete or erroneous information to CCC.

(c) Under §359f(c)(5) of the Agricultural Adjustment Act of 1938, as amended, any producer of sugarcane whose farm has a proportionate share, and who knowingly harvests or allows to be harvested an acreage of sugarcane for sugar or seed in excess of the farm's proportionate share shall pay to CCC a civil penalty in an amount equal to 1.5 times the U.S. market value of the quantity of sugar that is marketed by the processor of such sugarcane in excess of the allocation of such processor, for the year in which the violation was committed. However, civil penalties will not be assessed when the producer harvests acreage for sugar or seed in excess of the farm's proportionate share, if the excess sugarcane harvested is:
